

## Our impact investments

### Anchored in the Sustainable Developments Goals

The United Nations Sustainable Development Goals (SDGs) are the roadmap of the world to achieve a socially inclusive and sustainable society.

The SDGs consist of wide-reaching objectives for states, business and civil society. To help countries end poverty, protect the planet and ensure prosperity for all.

The SDGs reflect the importance of a cooperative, integrated approach to the interconnected challenges we face – an approach that closely reflects our own.

These global goals are strongly embedded within our impact strategies and investment funds.
